

SENTINEL MAILER®

Self-Sealing

Nov
80

Foam-Lined, Positive Locking, Light Weight Postage Saver

- Weighs ¼ of regular padded mailer
- Postage savings 13¢ to 1.04¢ per unit vs. other padded mailers.
- Crisp white envelope for first class image

These foam-lined Sentinel Mailers provide a safe, convenient method of mailing articles of all types. They are self-sealing and offer a positive-locking feature. They become a pilfer-proof container due to a true locking adhesive. They are moisture proof, as well as lint and dust free. They meet Federal Specification PPP-S-30.

More important now than ever, they are true postage savers . . . the lightest weight cushion mailers available. See the Postal Saving Chart below.

Sentinel Mailers are made of attractive white stock (another exclusive at regular prices). The cushion lining provides a unique foam protection on all sides. Heat sealable Sentinel Mailers are also available. With all these user benefits, why settle for less? Sentinel Foam Products, Inc., Hyannis, Mass. 02601. (617) 775-5220. Telex: 94-0350
